Product

Corrosion protection coating, Magnelis ZM310, is a special coating composed by an alloy of zinc, aluminium and magnesium. Coating thickness 25 µm per side.

Intended use

Intended as corrosion protection of steel sheet for indoor- and outdoor applications. The corrosion protection is suitable for corrosivity class C5, according to in SS-EN ISO 12944-2 described class, based on a deemed expected lifetime of 15 years.

Trade name

Magnelis ZM310

Approval

The product satisfy the requirements set forth in chapter 8, 4 § 1 PBL, in respect to and under conditions stated in this certificate, and are therefore approved in accordance with the provisions of the following sections of Boverket mandatory provisions on application of the European construction standards (Eurocodes), (EKS) issued by the National Board of Housing, Building and Planning:

EKS

Durability

Section A, 7 §

Durability

Section E, EN 1993-1-1, clause 2.1.3

Control

Production control is to be performed in accordance with instructions described in control agreement. An independent inspection body audits the control.

Control agreement: Appendix dated 28.03.2014, Inspection body: Karlsruher Institut für Technologie. Agreement no. 210-14-0161, Inspection body: SP Technical Research Institute of Sweden.

Control (cont.)

When the building proprietor performs inspection at the building site, he shall check the markings to ensure that the correct products have been supplied and that they are used in accordance with the requirements stated in the approval. He must also check that the product is accompanied by a manufacturing assurance, which certifies that the product has been manufactured in accordance with the documents on which this approval is based.

Manufacturer

Production control includes the following sites:
ArcelorMittal Liège, Yvoz-Ramet, Belgium
ArcelorMittal Bremen, Bremen, Germany

Marking

Products coated with a corrosion protection according to this approval shall be marked. The marking consists of a label on every packing supplied and includes:

Approval holder / Manufacturing site	ArcelorMittal / Liège or Bremen
Boverket's registered trademark	†
Certification body and accreditation number	SP Certifiering 1002
Product type designation	Magnelis ZM310
Properties	"covered with approved (tg No. SC0559-13) corrosion protection coating in corrosivity category C5"
Consecutive manufacture No./date of production	No./date
Inspection body	KIT / SP

Basis for approval

Report No. 3P05801A from SP Technical Research Institute of Sweden.
Report No. 133377-2 from Karlsruher Institut für Technologie (KIT).

Comments

Corrosivity category C5 requires an intact corrosion protection after installation.

Period of validity

This approval is valid until 04 June 2019.

The validity of this approval expires when the product shall be CE-marked according to the Construction Products Regulation (EU) 305/2011. However, the technical assessment showing that the product fulfils the requirements in the building regulations, issued by the Swedish National Board of Housing, Building and Planning, is not affected.
